

COMING ALIVE

CAPO 7 or 9

106 bpm

Looking back on all my years
Wond'ring Why I lived with fear
Is this all that my life will say?
Existing only day to day

Standing at a crossroad site
My future is it left or right?
The time for choosing has arrived
Keep dying or walk in the light

CHORUS:

My life I feel has made no mark
I hear Your call and turn for help
I cannot do this on my own

For You have set my future right
Bringing me from death to life

You knew that I would come alive. So I'm coming alive...

Walking in my destiny
Knowing this was planned for me
Looking back now in hindsight
The choice was really black and white
